**PRODUCT OF THE YEAR**

MEI INTERNATIONAL S.R.L.

# MEI-TER

## SUPER SOFT CUTTING

Proudly we have studied and set up, first in the world, the original and revolutionary patented **eyelet wire** fixing system, for a super-soft selvedge, that allows a fine quality edge due to a high control over the cutting heat and a more efficient **saving of energy**, compare to all our competitors.

A modern and ergonomic device that allows a perfect micro-adjustment of all the cutting lines, without any waste of time. More than 300 sockets uploaded on an unmatched stability bar in special aluminum alloy, individually monitored with electronic boards and **ANDROID system tablet**.

An advanced injection molding technology allows a free maintenance cutting device and an easy adjustment operation for a **perfect cutting zone**. Our special simple design, high-tech combination of materials used and smart engineering, allows a very low maintenance and spare parts costs.
